

Pharmaself24

Provide 24/7 prescription collection for your local community.

Convenient for patients, great for business!

The Pharmaself24 allows your patients to quickly pick up their prescriptions whenever its most convenient for them, without the need to queue. It's the simple and secure way to make your dispensing process more efficient, whilst giving your patients the best possible experience.

Benefits for your business

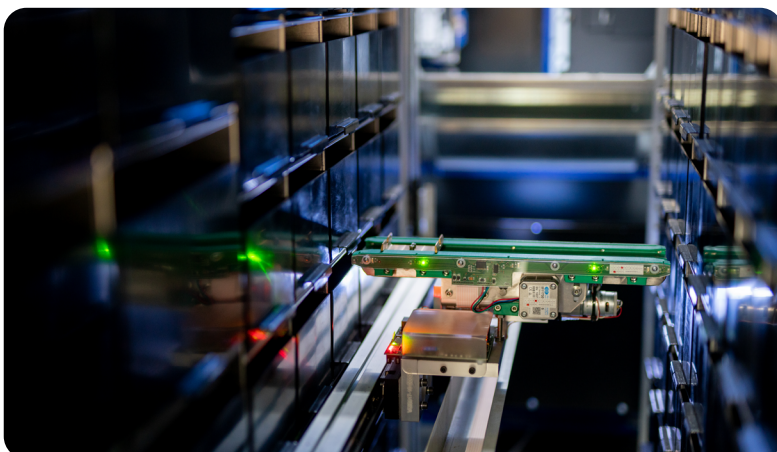

- Free up staff time and divert resources to more valuable tasks.
- Attract new patients and maintain the loyalty of existing ones.
- An adaptable solution to safeguard and drive revenue and growth.
- Take more control over your opening hours.

Benefits for your patients

- Enhance the patient experience through added convenience.
- Enables your patients to collect their medication at any time.
- Better access to one-to-one healthcare advice and pharmacy care.

Join the expanding network of Pharmaself24 customers
200 and counting!

Use Case

Based on 800 patient collections per month.

Without Pharmaself24

800 patients come into store just to collect their prescription bags, creating peak-time queues around your opening hours.

800 bags need to be stored on shelves to be distributed to patients on their arrival during opening hours.

Staff need to spend 3-4 minutes finding and handing out each bag, 800 times every month.

With Pharmaself24

Patients can conveniently collect prescriptions at any time, giving them 24/7 access to their medications and setting your pharmacy apart from the competition.

Bags are loaded into the Pharmaself24, freeing up vital storage space in your pharmacy.

By removing the task of handling 800 bags, your pharmacy staff gain up to 53 hours of extra time per month to focus on revenue-generating activities.

“It’s like an extra team member in a way. It’s freed up time to a greater extent than I thought it would, which has been particularly helpful recently with unforeseen staff absences.”

Ali Sparkes, The Health Dispensary
